- (n) Upon the Scheme becoming effective, (i) the respective carrying values, of the assets, liabilities and identified reserves of the Rayon Undertaking as at the values appearing in the books of account of DCMSR at the close of business on the day immediately preceding the Appointed Date, shall be reduced from the books of accounts of DCMSR; (ii) the investment of DCMSR in the Resultant Company 2 as appearing in its books of accounts shall be cancelled; and (iii) the difference of the above, shall be recorded in the books of DCMSR as capital reserve (if credit) and should be presented separately from other capital reserves, or revenue reserves (if debit) and if there are no reserves or inadequate reserves, to an amalgamation deficit reserve (if debit), with disclosure of its nature and purpose in the notes to the financial statements.

Benefits of the Scheme

8. Following benefits are involved:

- (a) The demergers will provide scope and opportunities for pursuing independent growth and collaboration and expansion of the 3 (three) segregated business verticals (Rayon Undertaking, Chemical Undertaking and Residual Undertaking) for enhancing their valuations.
- (b) Since such business verticals (Rayon Undertaking, Chemical Undertaking and Residual Undertaking) are independent and self-sufficient (with no critical business inter-dependencies), transition will be smooth and seamless and will continue to function efficiently with efficiency, efficacy and synergies post the demerger and segregation.
- (c) By unlocking value, the option of independent joint ventures, collaborations on a sectoral basis are made possible, i.e., separate ventures for Resultant Undertaking, Chemical Undertaking and Rayon Undertaking, and the segregation will allow each of DCMSR, Resultant Company 1 and Resultant Company 2 to create a strong and distinctive platform with more focused business and management teams, which will enable greater flexibility to pursue long term objectives and independent business strategies.
- (d) This is critical as modern investors and collaborators do insist on value growth without diffusion of their investments into multiple businesses, and the same will also provide diversity in decisions regarding use of cash flows and exploring various opportunities for separate businesses. The past examples have shown that in business restructuring, the sum of parts is greater than the whole.
- (e) Since the promoter family is moving closer to a generational shift, the Scheme will facilitate succession planning in an orderly and strategic manner, without any business disruption, which is key to secure the long-term stability, leadership, transparency and operational clarity of DCMSR and the Resultant Companies.
- (f) Further, the amalgamation of the Transferor Company with DCMSR and the demerger shall provide the family members constituting the 'promoter and promoter group' of DCMSR to have direct holding of shares of DCMSR and consequently, the Resultant Companies (instead through investment company(ies)) so that they can take independent decision on their respective shareholdings in each entity.

9. The proposal to undertake the Scheme amongst the Transferor Company, DCMSR, Resultant Company 1, Resultant Company 2 and their respective shareholders and creditors, under Sections 230-232 and other applicable provisions of the Act and in compliance with the Listing Regulations read with the SEBI Master Circular was placed before the ID Committee at its meeting on 14.11.2023.
